PROFESSIONAL SUMMARY

Experienced Web Developer with 6 years in IT, adept in front-end and back-end technologies, designing, implementing, and maintaining scalable web apps using modern frameworks.

TECHNICAL SKILLS

Frontend: ReactJS, React-Native, NextJS

Backend: Node.js, Express.js

Database: MongoDB, GitHub, MySQL

DevOps: Amazon Web Services (AWS), CI/CD Pipelines, Docker

PROJECTS

Project 1: Gen AI Chatbot

Orchestrated the development of a cutting-edge Gen AI Chatbot, leveraging AWS Lex. Seamlessly integrated ReactJS and Bootstrap for the frontend, harnessed GraphQL for efficient backend queries, and orchestrated connections with Aurora DB, AWS Redshift, AWS Cognito, AWS Amplify, AWS Lambda functions, and Azure AD for authentication. Employed Azure DevOps pipeline for deployment. Realized substantial efficiency enhancements, achieving a notable 30% reduction in development time through meticulously integrated systems and streamlined workflows across the entire technology stack.

Project 2: Ecommerce Website

Led the development of an Ecommerce website utilizing ReactJS with Redux and Saga for efficient state management and JWT token authentication for secure user access. Leveraged RESTAPIs, MongoDB, Node.js, and Express on the backend to ensure seamless data flow and scalability. Deployment was streamlined through GitHub. These technologies collectively saved approximately 60% effort in development, ensuring smoother integration and robust functionality.

Project 3: Food Delivery App

Led the development of a food delivery app website, leveraging Next.js with Context API for frontend responsiveness. Orchestrated GraphQL, MySQL, and Node.js for seamless backend functionality, employing Jest for rigorous testing. Expertly integrated Azure DevOps Pipeline for efficient deployment management. Through meticulous utilization of these technologies, I achieved a notable 30% reduction in development time and a 20% enhancement in deployment efficiency, showcasing adeptness in optimizing project workflows.

EXPERIENCE

Application Developer Senior Analyst– Accenture | Mar 2022 – Present
- Orchestrated the development of dynamic and responsive user interfaces using ReactJS, resulting in a 30% improvement in user engagement and a 20% increase in customer satisfaction levels.
- Implemented reusable components and optimized rendering performance, leading to a 25% reduction in page load times and enhanced overall application responsiveness by 35%.
- Contributed to the adoption of best practices and coding standards, resulting in a 100% codebase reliability and a 30% faster development cycle.
- Collaborated cross-functionally to troubleshoot and resolve critical issues, achieving a 95% bug resolution rate and ensuring seamless user experiences.

Subject Matter Expert– Concentrix (Microsoft EPS Process) | Sept 2019 – Feb 2022
- Attained Subject Matter Expert status in Microsoft 365 support within 10 months, resulting in a 95% faster issue resolution and a 30% increase in user productivity.
- Developed VBA modules for Office applications, leading to a 25% boost in productivity and streamlined workflow processes.
- Spearheaded Office 365 application deployments using SCCM and other methods, ensuring seamless integration and a 100% user adoption.
- Automated infrastructure tasks with Ansible, Chef, and Puppet, alongside managing CI/CD pipelines with Jenkins for automated software delivery, Docker, and Kubernetes for containerization, ensuring streamlined operations.

Analyst– HCL Technologies | Mar 2018 – Aug 2019
- Provided expert troubleshooting for Office 365 and networking in Teradata Project environment, achieving a 90% issue resolution rate and improved system reliability by 25%.
- Implemented process improvements that enhanced team efficiency, resulting in 30% faster task completion and increased productivity.
- Consistently exceeded client expectations, recognized for exceptional performance, contributing to 100% client satisfaction and repeat business opportunities.

EDUCATION

Vaish College of Engineering, Rohtak, Haryana | B.Tech. (CSE) | 2013-17
